The following is a list of NCEA-W projects (or those for which we have the lead) where funding requests have been approved for FY12 extramural money. Given that we are so far into FY 12 (ending on September 30) we need to be very sharp in getting the dollars committed into the EAS system so that the projects get started in early October or as needed. We would like to have these monies committed in EAS by August 17 if that is possible.

If you find that contracting paperwork can not be initiated before that date above, let us know so that we can review the options.

Here are the funding decisions for FY 12 dollars
